

VERSATILE™

FOOD PROCESSING PACKAGING

» RECTANGULAR

» TWO LID TYPES

» MULTIPLE SIZES

» EASY AUTOMATION

» RESISTANT

» STACKABLE

» OUTSTANDING DESIGN

» CUSTOMIZABLE

COMBINATION OF 2 LID TYPES PER CONTAINER

EASY-TO-SEAL

Versatile™ food containers, made from food-grade polyethylene terephthalate (PET), are crystal-clear for easy content viewing and rectangular for more efficient shelf placement.

They are ideally suited for all types of food products.

CHOICE OF LIDS

Exterior fitting

Can be sealed using a lid film and snap shut on the container's outer edge.

Recessed interior

Sits inside the base for a tighter fit, reducing air exchange and allowing for application of a safety seal.

» APPLICATIONS

- Couscous/beans
- Ready-to-eat food
